

Definition and Explanations of Let's Go Learn Performance Band Report Categories

Performance Band (PB) reports look at the "Gap" of students' abilities by sub-test scores. Gaps are basically sub-test score minus grade level. PB reports allow for an analysis of a school by grade level to quickly see how many students are in various performance groups i.e. roughly what percentage are below, at, or above grade level.

PB reports run in **relative** mode produce Gaps by taking a student's score minus his/her decimal grade.

i.e. 3.5 Word Rec score minus 3.1 (test taken in October for a 3rd grader) equals 0.4 meaning the student is 0.4 years above his decimal grade.

PB reports run in **absolute** mode produce Gaps by taking a student's score minus his/her integer grade.

i.e. 5.5 Comp score for a 6th grader would be 5.5 minus 6 which would equal -0.5 years. Or 0.5 years below grade level.

In the tables below the Gap value determines the performance band into which a student reside.

DOMA Pre-Algebra

This assessment is meant to test a specific math content area thus the bands are based on the raw scores of this assessment.

The Total Score (aka Raw Score) range from 0 to 14. BMS and PreA are two sections.

BMS is section 1 to 5 and focuses on basic math skills, PreA is sections 6 to 14 and focuses on pre-algebra math skills.

Performance 3 Band	Total Score	Basic Math Skills	Pre-Algebra
Proficient	11 or greater	4.5 or greater	6.5 or greater
Below	7 to 10.5	3.5 to 4	5 to 6
Far Below	6.5 or lower	3 or lower	4.5 or lower

DOMA Algebra I

This assessment is meant to test a specific math content area thus the bands are based on the raw scores of this assessment.

The Total Score (aka Raw Score) range from 0 to 11.

Performance 3 Band	Total Score
