

Using Student Notes in Let's Go Learn

Overview: Teachers can add notes on any student and these are stored historically for all teachers to see. This allows for easy collaboration on each student individually.

On the Notes Page:

Teachers can add notes that will be date stamped with their name. They will be listed from the newest to the oldest. Starred notes will appear at the top, rather than being pushed down the list. This way, teachers can easily refer to current student learning plans (SLPs or IEPs) that have been starred.
